Quiz Review 8.2.2 Potential Energy

Which roller coaster has the greatest gravitational potential energy and why?

| STATISTICS | WICKED | CANNIBAL |
|-------------------------|--------------|---------------|
| Vertical Height (m) | 34 (110 ft) | 63 (208 ft) |
| Speed (km/hr) | 89 (55 m/hr) | 110 (70 m/hr) |
| Capacity (riders/train) | 8 | 12 |

Define Potential Energy: ______

| Elastic | Chemical | Gravitational |
|---------|----------|---------------|
