

Name: _____

8th Integrated science

gvc 3- earth

Write your score for form A below. If you did not pass (**80% or higher**), then you must take Form B. If you do not pass form B, then you must take Form C. If you do not pass Form C, see your teacher.

GVC- Students will understand the processes of rock and fossil formation.				
MASTERY QUIZZES	Learning Targets	Form A	Form B	Form C
3.1AB	I CAN Recognize that most rocks are made of minerals and describe the minerals found in rocks.			
3.1C/3.2AB	I CAN Categorize rocks as sedimentary, metamorphic, or igneous and diagram and Explain the rock cycle and the role of energy in these processes.			
3.2CDE	I CAN demonstrate how erosion and weathering change the Earth's surface and form soil. I can relate these processes to gravity and energy.			
3.2F	I CAN describe the processes of fossil formation.			
3.3ABCDE	I CAN describe how rock materials deposit in layers and how scientists determine the relative ages of rock layers.			
3.4ABCDE	I CAN Describe how energy from the Earth's interior is transferred to the surface and causes changes to the Earth's surface.	On Earth Final		
Earth Final	I CAN explain the processes of Rock and fossil formation.
