

EVIDENCE FOR NEBULAR THEORY

There are basically 3 major features of our solar system that provide evidence for the nebular theory. Complete a basic search to discover and provide a simple summary (needs to be 1 to 2 sentences long) about each of the features. A key word has been provided to give guidance with the research.

	1 to 2 Sentence Summary	Cite Source
Feature 1 - orbit of planets		
Feature 2 - two kinds of planets		
Feature 3 - Comets, Meteors, and Asteroids
