

Intervention: Photosynthesis and Cellular Respiration

Foldable

For this assignment, you are going to be making a 5-flap foldable for the cellular process of photosynthesis and cellular respiration. Use your webquest and reading guide for the needed information

Set-up

- Hole punch your paper. Fold the right side of the paper over to the left side. Do not cover the holes.
- Section your paper to get 5 equal size flaps. As seen in diagram.
- Cut along the lines you just folded ONLY to the center fold line.

Front Flaps

- Label each flap following the order below:
 - Organelle
 - Equation
 - Reactants in Equation
 - Production in Equation
 - Importance to Organism (must be 2 sentences)

Inside Back- Photosynthesis

- Fill in the boxes following the prompt on the front flap for the process of photosynthesis

Inside of the Flaps- Cellular Respiration

- Fill in the boxes following the prompt on the front flap for the process of cellular respiration
