

# Notebook Page 5

## Reflection Directions

### Post Card

Purpose of Reflection - To show your understanding of safety in the lab.

Directions - Create 2 boxes on notebook page 5. All postcards have a front and a back. The front usually has a picture and the back is where information is provided. Choose one of the boxes and draw a simple diagram or picture of lab safety, along with a title for the postcard.

On the other box, set it up just like a postcard, address it to someone, place a stamp on it, and write 3 to 4 sentences explaining how to be safe in the science lab.
