

Name: \_\_\_\_\_

## PROCEDURES

### **Tips for Writing Procedures for a Science Experiment**

1. The steps are \_\_\_\_\_.
2. Each \_\_\_\_\_ begins on a new line.
3. The steps are written in \_\_\_\_\_ sentences.
4. The language is \_\_\_\_\_, plain, and concise.
5. \_\_\_\_\_ pronouns (such as I, he/she, it, you, we) are not used.
6. The method described is \_\_\_\_\_ and reasonable.
7. The steps are written in the most \_\_\_\_\_ and efficient sequence.
8. Enough information is provided so that \_\_\_\_\_ could perform the procedure.
9. The work is \_\_\_\_\_, presentable, and legible.

Directions: Write detailed procedures for making a peanut butter and jelly sandwich.
