## Where is Earth's Water Located?

Directions: Read the USGS article "Where is Earth's Water Located?" and use it to answer the following questions.

1. Why is Earth like a closed system?
2. How much of Earth's water is found in the ocean?
3. How much of Earth's water is freshwater?
4. How much freshwater is locked up as glaciers and ice caps?
5. Where is most of the water we use in our everyday lives?
6. Create a graph in the space below with labels that shows the distribution of Earth's water.

A large empty rectangular box with a black border, intended for the student to create a graph showing the distribution of Earth's water.
