NATURAL DISASTERS WEBQUEST

PART ONE: Visit http://time.com/safest-counties/.   Click on one county for each color. Scroll down to find the information to record in the table.

Color Code	County Name and State	Rank	# Disasters in county	# Fatalities in county	Property Damage
Example Pale/white	Washington County, Idaho	2	3	0	$1.15M
Dark Orange/Red					
Orange					
Light Orange					
Pale/ White					

PART TWO: Visit http://tinyurl.com/yaesfe6o Find the year you were born on the Hurricane Archive.

YEAR = _____

1. How many storms were there in the North Atlantic that year?

2. How many hurricanes were there, that year, in the North Atlantic?

3. How many deaths from hurricanes in the North Atlantic?

4. How much damage in millions of dollars have the North Atlantic hurricanes caused?

Click back, then click on 2015 and fill out the table.

Region	# of Storms	# of hurricanes, typhoons, cyclones	Max Wind Speed	Name of storm with Max wind speed
North Atlantic				
East Pacific				
Western Pacific				
Indian Ocean				

1. What types of storms had the highest wind speeds?

2. Which region had the most storms?

PART THREE: Visit http://tinyurl.com/jvxdvfe to view the latest real-time earthquake information for the US. Zoom out to look at the top of the list

Record the last 5 earthquakes and their location, time, and date in the data table below.

Magnitude/ Strength (#)	City & State/Country	Time & Date
1.		
2.		
3.		
4.		
5.		

PART FOUR: Visit http://tinyurl.com/yabh8rfn to read about the 10 deadliest natural disasters world-wide for 2017. Fill in the chart as you read. Click the NEXT arrow to get started

RANK	Location	# of Deaths	Event	Fact
10				
9				
8				
7				
6				
5				
4				
3				
2				
1				

1. What type of event seemed to cause the most deaths overall?

2. Where would you most likely be able to live to avoid natural disasters? Explain your reasoning.
